

PRODUCT NOTICE

SATELLITE XT

Product Updates for Compliance to EN 50270:2015

Regions Affected: **Europe**

Dear Customers and Colleagues

In order to meet the requirements of the latest European EMC standard, EN 50270:2015, certain aspects of the Satellite XT have been updated. These include a change in the enclosure material of the MST Extractive module and the use of a different style of connector that link the Satellite XT transmitters together with the Extractive and Pyrolyzer modules.

As of 1st December 2018, Honeywell will be supplying the revised designs of these products into the European market, featuring the updated connectors. In the case of the Extractive module the housing material will be aluminum instead of plastic. All of these updated models will be sold under a set of new part numbers, which are shown in the table below. Please use these part numbers when ordering Satellite XT products:

Please substitute the following part numbers against those listed in the 2019 published Price List for Satellite XT products sold in Europe. The pricing is identical to that listed in the 2019 published Price List.

Description	Previous Part Number	New Part Number for Europe
MST Satellite XT Transmitters		
MST Satellite XT 4-20mA EM	9602-020010	9602-020020
MST Satellite XT 4-20mA/R EM	9602-020510	9602-020520
MST Satellite XT 4-20mA/C EM	9602-025010	9602-025020
MST Satellite XT 4-20mA/C/R EM	9602-025510	9602-025520
MST Satellite XT FTT EM	9602-040010	9602-040020
MST Satellite XT FTT/R EM	9602-040510	9602-040520
MST Satellite XT FTT/C EM	9602-045010	9602-045020
MST Satellite XT R EM	9602-050510	9602-050520
MST Extractive Modules		
MST Extractive Module XT Standard	20404-0200	20404-0400
MST Extractive Module XT Combustible	20404-0250	20404-0450
MST Extractive Module XT Low Flow	20404-0300	20404-0500
MST Pyrolyzer Modules		
MST Pyrolyzer Module XT NF3	20408-0110	20408-0410
MST Pyrolyzer Module XT 1.2-DCE	20408-0112	20408-0412
MST Pyrolyzer Module XT SF6	20408-0114	20408-0414
MST Pyrolyzer Module XT CH3F	20408-0116	20408-0416
MST Pyrolyzer Module XT C5F8	20408-0120	20408-0420
MST Pyrolyzer Module XT C4F6	20408-0122	20408-0422

Part numbers for accessories and sensors for these products remain unchanged. Customers who require a replacement unit for one that has failed should do so through Honeywell Service departments under the previous part numbers shown in the table above.

The images below show the previous and replacement units' connector designs. Use these to aid the identification of the different connectors used on these products.

PRODUCT NOTICE

Previous Design

Previous black plastic connector design linking the Satellite XT (right) to the Extractive module (left).

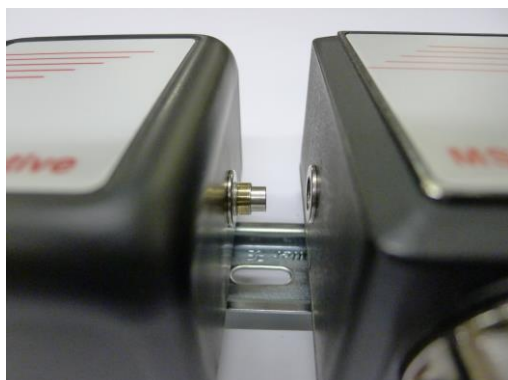

Detail of the previous Satellite XT black plastic connector for connection to the Extractive module

Previous Pyrolyzer module flying lead with moulded plug (black colour)

PRODUCT NOTICE

Revised Design

Replacement plated metal connector design linking the Satellite XT (right) to the Extractive module (left).

Detail of the revised Satellite XT plated metal socket for connection to the Extractive module

Revised Pyrolyzer module flying lead with fitted metal plug

PRODUCT NOTICE

Note that the previous and revised Satellite XT transmitter, Extractive and Pyrolyzer units are not interchangeable.

For customers in regions outside of the EU, please continue to order the previous part numbers.

In the case of any questions, please do not hesitate to contact us.

Regards,

Nimil David
