

Key Features

- Easy to operate - ideal for educational use
- Supplied with safe spirit filled thermometer
- Economical price

SMP11

SMP11

Melting point apparatus, analogue

With new safety features and easy to use, the SMP11 is ideal for use in education. Supplied with a safe, spirit filled mercury free thermometer, the low toxic blue spirit will not pose a health hazard in the event of a breakage. Easy to follow instructions are printed directly on to the apparatus and are available in most European languages.

With a manually adjustable heating rate, the SMP11 will rapidly heat samples up to 20°C per minute to the melt temperature and up to the maximum temperature of 250°C. Accurate readings to within 1°C of the melt temperature can be achieved by using a slower heating rate of between 1 and 10°C per minute.

Up to three samples can be viewed and tested at any one time. Samples are illuminated by a bright white LED and viewed via a magnifying lens. The magnifying lens can be detached for cleaning using the simple to follow instructions printed on to the instrument.

Technical Specification

Number of samples	Up to 3
Temperature range	50°C to 250°C
Heating rate	1 to 10°C per minute
Dimensions, mm (w x d x h)	370 x 140 x 110
Net weight, kg	1.7
Electrical supply	230V, 50Hz, 50W
IP Rating	40
